

Dear \_\_\_\_\_,

Today I completed my first lesson of a new program at school. We are learning how to save our seas. I met Thommo who is a world record holder for sailing around Australia solo. He loves the ocean and is teaching us how to look after it.

I also met a couple of Thommo's best friends. First I met \_\_\_\_\_ the Hump headed Mauri Wrasse and then there was \_\_\_\_\_ the turtle.

I learnt that plastic bags and plastics kill over \_\_\_\_\_ marine creatures and also \_\_\_\_\_ sea birds.

The world uses \_\_\_\_\_ billion plastic bags every year and if you tie them end on end they will go around the world \_\_\_\_\_ times.

I want to help save the turtles and whales so I've been given three missions to complete.

Mission #1 is to make sure our green bags are in the \_\_\_\_\_. That way when you go shopping you will have them with you.

Mission #2 is to gather all of our \_\_\_\_\_ and take them back to the shops where they can be \_\_\_\_\_

Finally I will now say \_\_\_\_\_ when offered a plastic bag and I hope you will too.

Signed \_\_\_\_\_
